

**Call for students, postdoctoral fellows and residents
to participate in the competition -
*ULTRA Scientists Day and 2022 Diabetes Canada/
CSEM Professional Conference***

Created in April 2012 by the Fonds de Recherche du Québec - Santé (FRQS), the **Research network on cardiometabolic health, diabetes and obesity (CMDO)** aims to promote research excellence, knowledge development and knowledge sharing in these areas to improve the quality of life of Quebecers.

The network is calling for Masters, PhD, Postdoctoral and Resident students to participate in the *ULTRA Scientists Day and 2022 Diabetes Canada/CSEM Professional Conference*, to be held **November 9-12, 2022 in Calgary, Canada** (https://cchcsp.ca/wp-content/uploads/2022/05/ULTRA-Day-blurb-2022-_V6.pdf and <https://www.diabetes.ca/get-involved/conferences/diabetes-canada-csem-professional-conference>). Master's students, PhD students, postdoctoral fellows and residents of all regular members of the network are invited to participate in this competition. The *ULTRA Scientists Day* is an excellent opportunity for learners to advance their skills in patient engagement in research and intersectionality, writing a knowledge mobilization/translation plan, peer mentorship and conflict resolution. Additionally, the Pub Scientifique is back! The panelists are looking forward to discussing and answering career-related (and life-related) questions from trainees in an informal and fun setting. This will be followed by the *2022 Diabetes Canada/CSEM Professional Conference*. In addition to attending lectures by leading experts in the field, participants will discuss their own research interests and activities at a high scientific level and learn about other research projects. Diabetes Action Canada and myROaD program will cover the local costs (registration for the *ULTRA Scientists Day* (November 9) and accommodation for two nights as well as registration for the *2022 Diabetes Canada/ CSEM Professional Conference*, (*personal expenses and accommodation during the Diabetes Canada and/or extended conference are not included*)) of the Quebec participants selected by the CMDO Network. The Network will pay \$500 per participant to reimburse a portion of the transportation costs. All other costs will be assumed by the participant and/or his/her director.

Deadline for submitting applications is September 7, 2022.

Women, Aboriginal people, visible minorities, ethnic minorities and people with disabilities are encouraged to apply. For evaluation purposes, we strive to recruit a diverse committee that reflects the profiles of the applicants and ensure an evaluation process that takes into account the particular situations of the applicants, including atypical trajectories.

The eligibility criteria and the evaluation method are described below. Requests submitted late, incomplete or that do not meet the eligibility criteria will not be evaluated. Selected candidates will be contacted **in september**.

Eligibility criteria:

- 1) To be a Master, PhD, Postdoctoral and Resident student, whose research director is a **regular member** of the CMDO Network. The research director must be a member of the network before applying to the competition.
- 2) To have a research project related to diabetes.
- 3) Excellence and involvement:
 - Have an excellent academic record.
- 4) Demonstrate a motivation to pursue a research career in one of the network's areas of focus: Cardiometabolic Health, Diabetes and Obesity.
- 5) Speak and understand English (conferences and discussions are in English).
- 6) Selected participants will be required to submit an application to the [ULTRA Scientist Day](#) on November 9 and a scientific abstract to the [2022 Diabetes Canada/CSEM Professional Conference](#) on November 10-12, 2022 in Calgary, Canada..
- 7) Please note that the selected participant may be a winner for this competition only once. As a result, previous winners cannot participate in this contest. However, nothing prevents them from attending the congress at their expense.

Material required when applying:

- 1) Contest application form - *ULTRA Scientist Day 2022* completed online (see below). This document includes the research director's letter of support (*this letter can be included in the form directly or communicated (in PDF format) by email to concours@rrcmdo.ca*).
- 2) *Curriculum vitae* FRQS version (*with detailed contributions section*) of the candidate. Communicate this document directly to concours@rrcmdo.ca.

Application evaluation process:

The executive committee of the network will evaluate all applications submitted. The results of the competition will be announced **in September**.

Any request for additional information may be sent to the Research Network on CardioMetabolic health, Diabetes and Obesity (CMDO), Université Laval, École de Nutrition, email: info@rrcmdo.ca.

[THE FORM MUST BE COMPLETED ONLINE, CLICK HERE](#)

1. GENERAL INFORMATION:

Main theme of the candidate's research project (only one choice):

- Cardiometabolic health
- Diabetes
- Obesity

Secondary theme (s) of the candidate's research project (multiple choices possible):

- Cardiometabolic health
- Diabetes
- Obesity
- Not applicable

In which axis (s) of research is classified the research project of the candidate (multiple choices possible):

- Fundamental and pre-clinical research
- Nutrition, Physical Activity and Human Pathophysiology (Clinical Research)
- Life habits, risk factors and population interventions across life cycles (Population Health)
- Organization of Care (Health System), sharing and use of knowledge (Knowledge Transfer)

Name of applicant: e.g. BERGERON, Lucien Junior;

max. 100 characters, including spaces.

Affiliation: e.g. Faculty of Medicine and Health, University of Sherbrooke, Sherbrooke.

max. 250 characters, including spaces.

Ongoing studies program (if applicable): e.g. Cell Biology Program.

max. 120 characters, including spaces.

E-mail address: *max. 100 characters, including spaces.*

The name of the research director(s) regular CMDO Network member associated with this application: Ex.

CARPENTIER, André and BARNETT, Tracie

max. 400 characters including spaces

2. SCIENTIFIC SUMMARY OF THE RESEARCH PROJECT

The participant must provide a summary of his research project (same format as an abstract in a congress).

Abstracts in French or English are accepted, but successful candidates will be required to provide a summary in English for these activities.

max. 1500 characters, including spaces: The title, authors and affiliation are counted in the number of characters.

3. MOTIVATION – MASTER, PHD, POSTDOCTORAL AND RESIDENT STUDENT:

The participant must provide a description of the reasons that motivate him to participate in this *ULTRA Scientist Day*, in connection with his career plans (Justification of the relevance of your participation (Dissemination, transfer of knowledge, etc.)).

max. 4000 characters including spaces

4. LETTER OF SUPPORT - RESEARCH SUPERVISOR:

The research supervisor must provide a letter of support for participation in this conference (and, if applicable, mention financial support to cover the costs not reimbursed by Action Diabetes Canada/MyROaD or the CMDO Network) (*this letter can be integrated into the form directly or communicated (in PDF format) by email to concours@rrcmdo.ca* If so, please indicate it in the text box).

max. 4000 characters, including spaces.

5. CURRICULUM VITAE:

Provide a CV, FRQS version (including the *Detailed Contributions* section) of the candidate by email.
